

Pro-Tek Contamination Control Entrance Mats

Stop Contamination before it Enters Your Data Center

Pro-Tek contamination control entrance mats are your first line of defense in helping prevent contamination. Pro-Tek Contamination control entrance mats not only help prevent contamination risks that can cause downtime, but helps improve efficiency and reliability of IT equipment and hardware. Contamination accumulates inside server cabinets and hardware over time through airflow that carries particulate from your facility. Take every precaution to prevent downtime by utilizing Pro-Tek contamination control entrance mats at every entrance to your critical facility.
