

Standard EAI-310 snap in mounting locations

1U and 2U Snap-In Blanking Panel with and without Temperature Strips

SPECIFICATIONS

General Information

- 1U and 2U designs for greater flexibility
- Provides a 99.97% effective seal
- Completely tool less snap-in design
- Cantilevered sealing vanes eliminate the gap between adjoin blanking panels or with installed equipment
- Temperature strip units measure between 50F-102F (10C-39C)

DIMENSIONS

- 1U and 2U kits
- Available with or without Temperature monitoring strips

FINISHES

- Color – Black or White

MOUNTING

- Mounting Hole Spacing Compatible with Mounting Rails meeting the EIA-310-E Specification – compatible with nearly all rack mounting hole configurations
- Requires no extra mounting hardware

Description	Part Number
1U Black Snap-In Blanking Panel without Temperature Strip (Pack of 10)	TSBP1U
2U Black Snap-In Blanking Panel without Temperature Strip (Pack of 5)	TSBP2U
1U Black Snap-In Blanking Panel with Temperature Strip (Pack of 10)	TSBP1UT
2U Black Snap-In Blanking Panel with Temperature Strip (Pack of 5)	TSBP2UT
1U White Snap-In Blanking Panel without Temperature Strip (Pack of 10)	TSBP1U-WH
2U White Snap-In Blanking Panel without Temperature Strip (Pack of 5)	TSBP2U-WH
