

SPECIFICATIONS

General Information

- Integral Brush design for smaller cutouts sizes
- Compliant with ROHS requirements
- Capable of easily passing larger 30A power connectors
- Two units per rack allows for simple method of power and networking capable separation

Sealing Surface

- Angled single layer of opposing and interwoven filaments of the following diameter
 - 0.010" Filaments
- Approximately 13,200 filaments per grommet
- Type 6 Nylon
- Prevents 98% of bypass air undisturbed by cables at 0.10" static pressure
- Prevents 95% of bypass air with one inch cable bundle at 0.10" static pressure

Dimension

- Available Size
 - Part Number K10077
 - 7-11/16"x5-11/16"x1-1/2" Overall
 - 0.10" High installed
 - 4"x6" cutout size
 - 5"x2-1/2" usable cable area

Finishes

- Black Plastic

Mounting

- 4 Self Tapping Screws
