

UL Listed Custom Power Whips & Cables

Save Time and Money with Factory-Built Custom Power Whips & Cables

We offer factory-built data center power whips and cables made to your exact specifications. Our cables can save you significant time and money over contractor site-built power cables.

Save Time and Money vs. Site-Built Cables

We can quote, build, and deliver your power whips faster and cheaper than site built contractors. With 24-hour turn-around, our data center power whips and cables can save 20-25% over the cost of contractor site-built cables, and reduce installation time up to 50%.

UL Listed Data Center Power Whips

We offer greater peace of mind vs. site built power whips and cables. All our components are UL Listed specifically for data center environments and manufactured as a complete UL Listed Wire Assembly vs. site-built power whips.

HIPOT & Load Bank Factory Testing

All cables are 100% tested to ensure there will be no arcing or shorting of any conductor within the cable. Load banks apply at the factory apply an electrical load that accurately mimics the max load a cable will see while in use within your data center. Plus, all cables are HIPOT tested at twice-rated circuit voltage, plus 1500 Volts. Electronic and hard copy test results are provided upon request.

Customization to Your Exact Specs

Our cables can be built to any 1' increment that you require, and we offer 10 standard colors of flagship UL Listed Metallic Liquid Tight. Plus, we offer a variety of receptacles including NEMA-Locking and Straight Blade, IEC309, Russell Stoll, and California style receptacles, as well as standard die cast weather-proof boxes. We help keep your panels phased by providing circuit numbers associated with each cable, and if needed, we can assemble mounting hardware and bolts to your specific needs.

Improve and Protect Your Data Center
